I INTRODUCTION

F.I.T Group was established on March 8th, 2007. After many years of construction and development, F.I.T Group is considered as a model of a prosperous, multi industry Vietnamese economic corporation with outstanding production and business capacity, pursuing sustainable development goals, and actively contributing to community activities. Currently, F.I.T Group focuses on the following key business lines:

- ▶ Pharmaceutical - medical
- ▶ FMCG
- ▶ Agriculture
- ▶ Real estate

MISSION

Improving the quality of life through outstanding products and services.

We believe that everyone deserves to enjoy their lives and happiness.

With dedication and endeavour every day, we provide products and services of superior value to improve the lives for present and future generations.

8.026⁺ billion VND of total assets 

6.037⁺ billion VND of equity 

3.000⁺ employees 

18 member companies 

According to Consolidated Financial Statements as of September 30, 2025

VISION

A prosperous, multiindustry corporation with differentiated, class-leading, and outstanding products and services, bringing a better quality of life. A place where talents gather and honored by society.

With society and community

With great dedication, we strive to create unique and superior products and services that lead the market trends, offering the community the most satisfying choices and improving the quality of life for present and future generations. We continuously endeavor to build F.I.T Group as a model of a diversified Vietnamese economic group, renowned for its outstanding products.

With partners

We always collaborate with a spirit of respect, ensuring the interests of all parties involved, in order to achieve prosperity and sustainable development together.

With shareholders

We are committed to becoming a diversified corporation that operates efficiently and enhances value for shareholders through sustainable business activities. Our aim is to achieve outstanding growth, surpassing the VNindex benchmark, and at the same time fulfilling our high social responsibilities.

With employees

We aspire to become a corporation with the best working environment, where many want to contribute their talents. We aim to attract and gather a team of dedicated and professional individuals, who take pride and find happiness in their work.

I CORE VALUES

SINCERITY

- ▶ Genuine goodwill and respect toward colleagues, partners, and customers.
- ▶ Dedication and responsibility in all activities.
- ▶ Wholeheartedly bringing forth positive values for the community.

DESIRE FOR VICTORY

- ▶ Always think positively, constantly seek solutions to excel in achieving goals.
- ▶ Always have a burning ambition, ready to face challenges to claim victory.
- ▶ Initiate tasks with a commitment to success.
- ▶ Determination is the best in the most important endeavors.

PERFORMANCE EXCELLENCE

- ▶ Clearly define, understand the goals and stay focused on them.
- ▶ Unite, be determined, and overcome all obstacles to achieve outstanding goals.
- ▶ Plan meticulously and execute the plan flawlessly.

CONTINUOUS IMPROVEMENT

- ▶ Always challenge the conventions and constantly seek the better solutions.
- ▶ Be open to improvements for the better.
- ▶ Continuously strive for self-improvement in a professional, creative, and effective manner, aiming for better results each day.

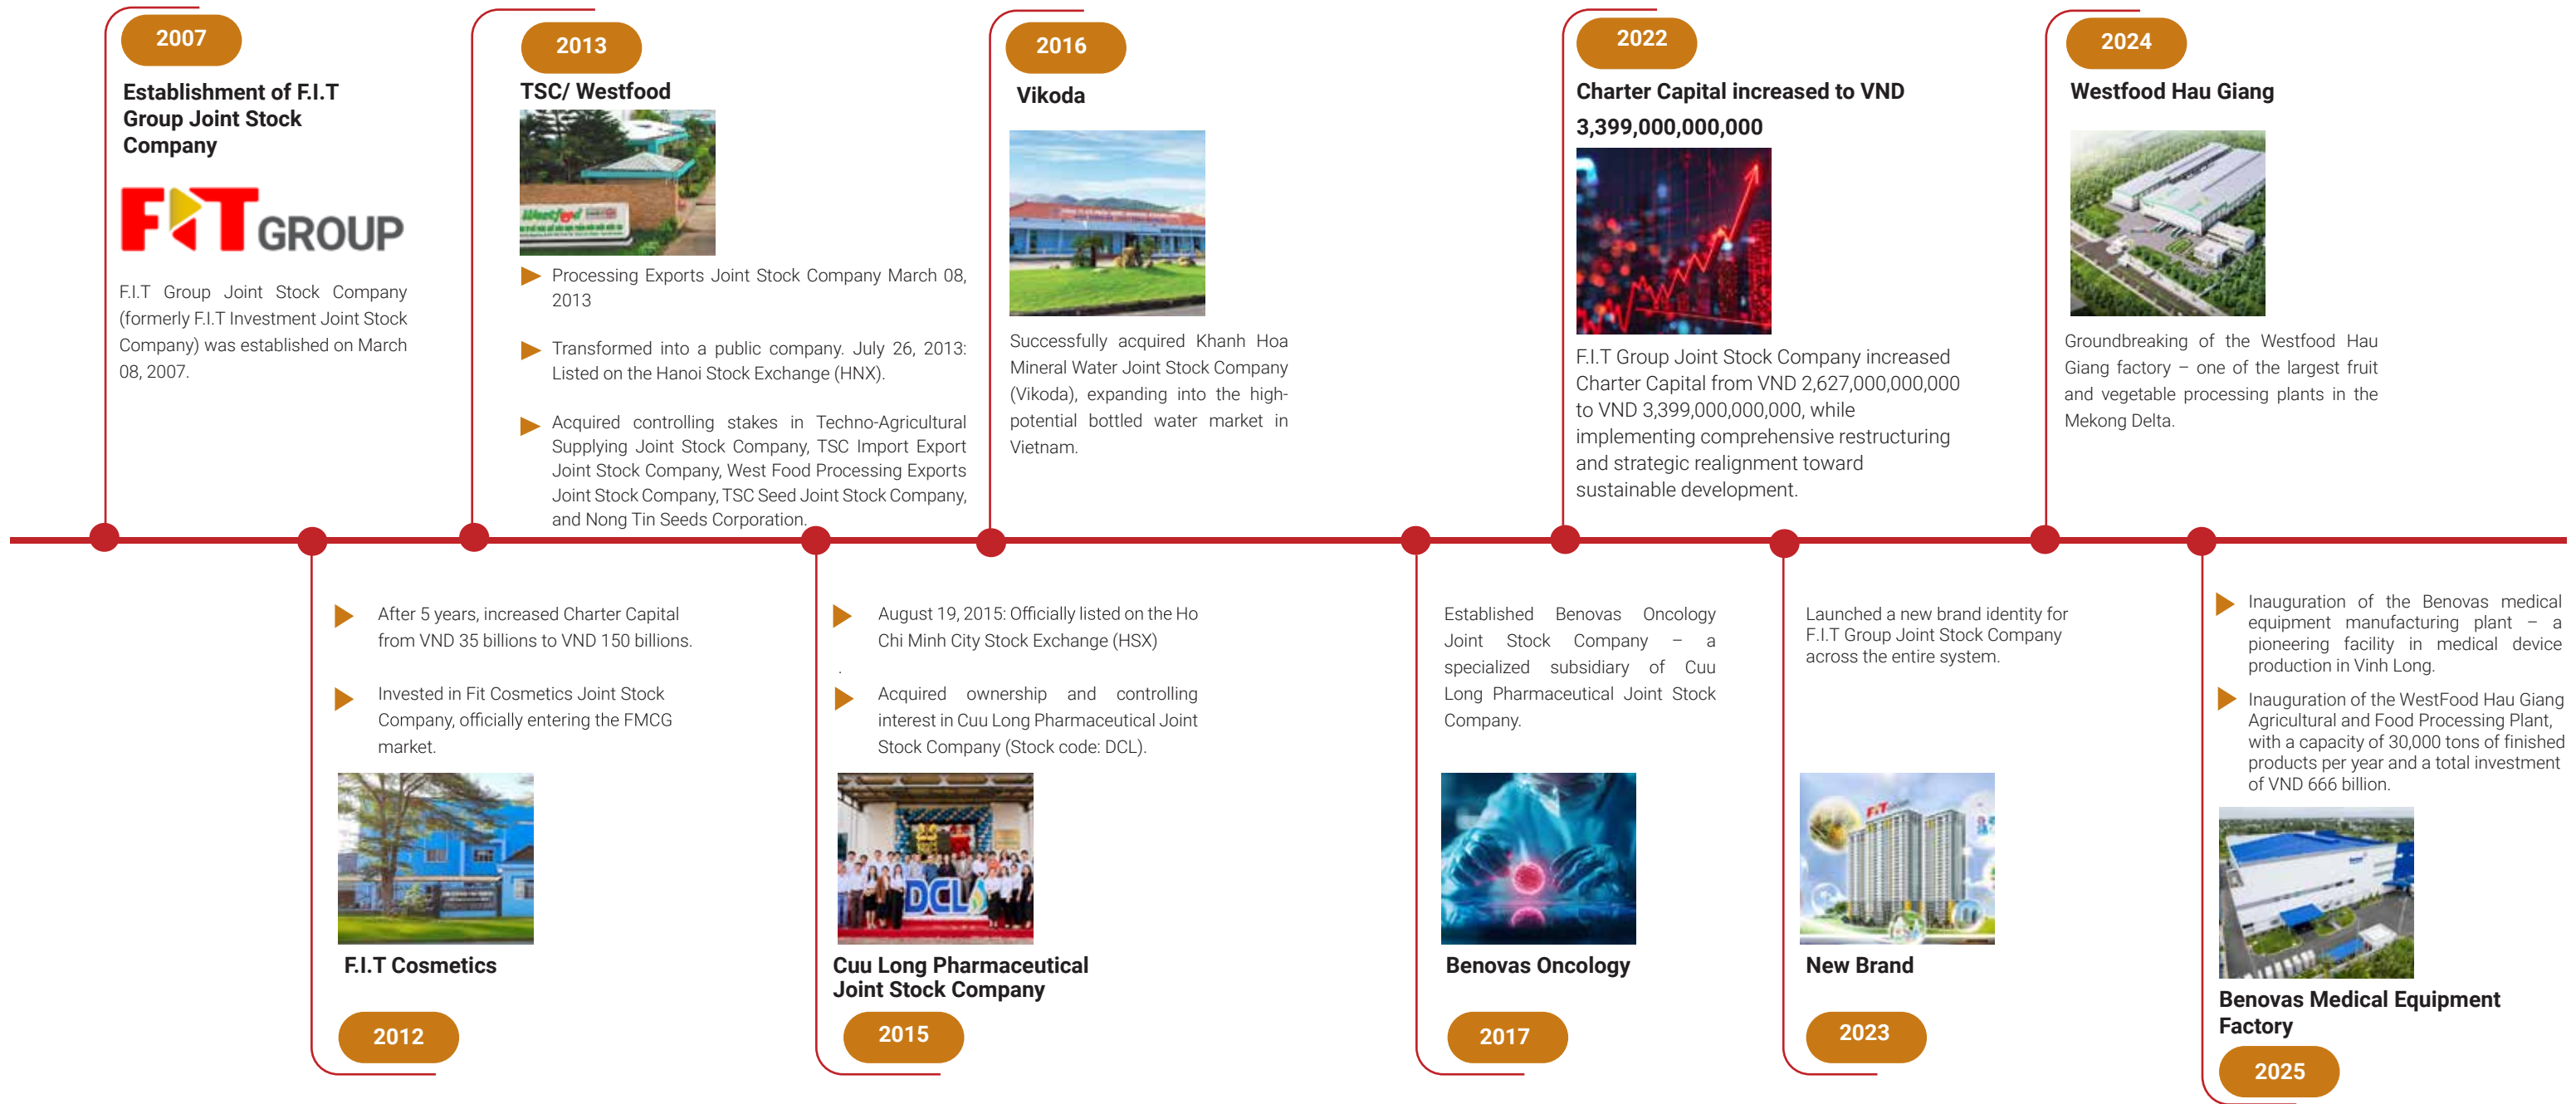

COMPLIANCE

- ▶ Always abide by legal regulations.
- ▶ Always comply with the rules, regulations, and procedures.
- ▶ Take responsibility for preserving and protecting the reputation, brand image, and assets of the Group.
- ▶ Adhere to the leaders (with constructive feedback), prioritize personal accountability, and avoid evasion or shifting of responsibilities.

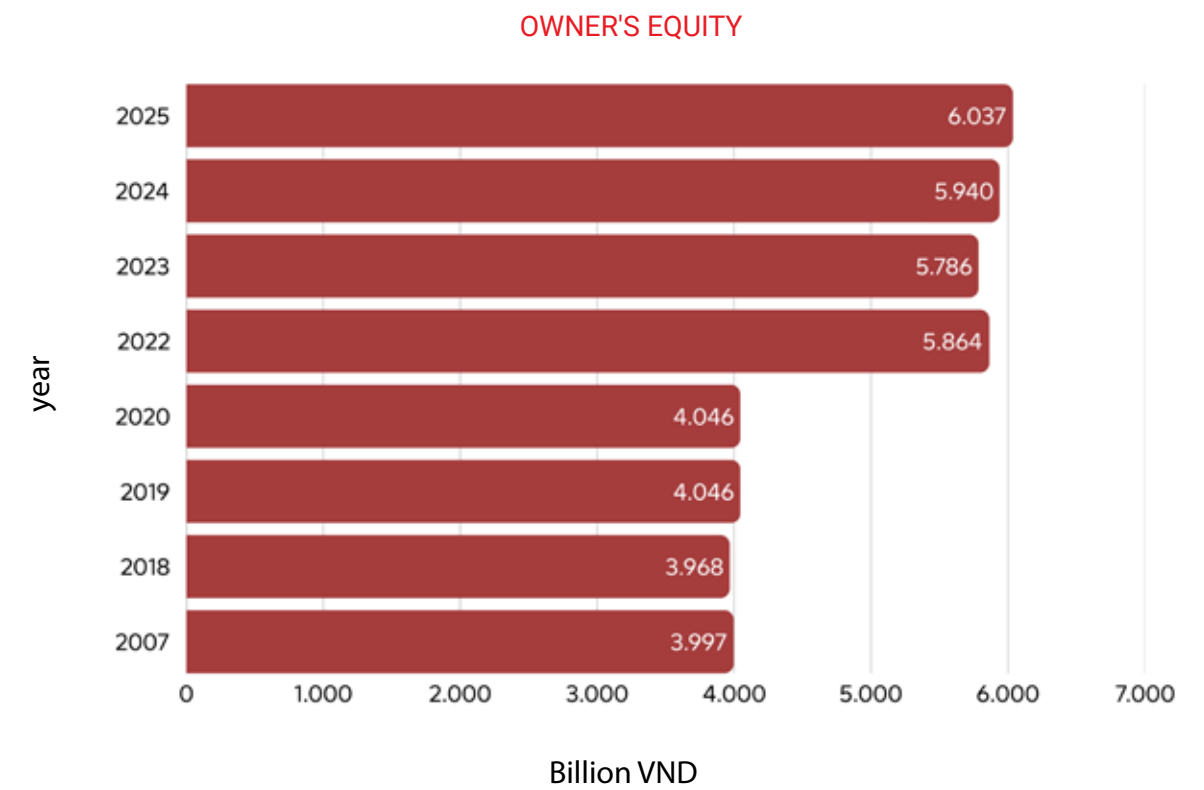

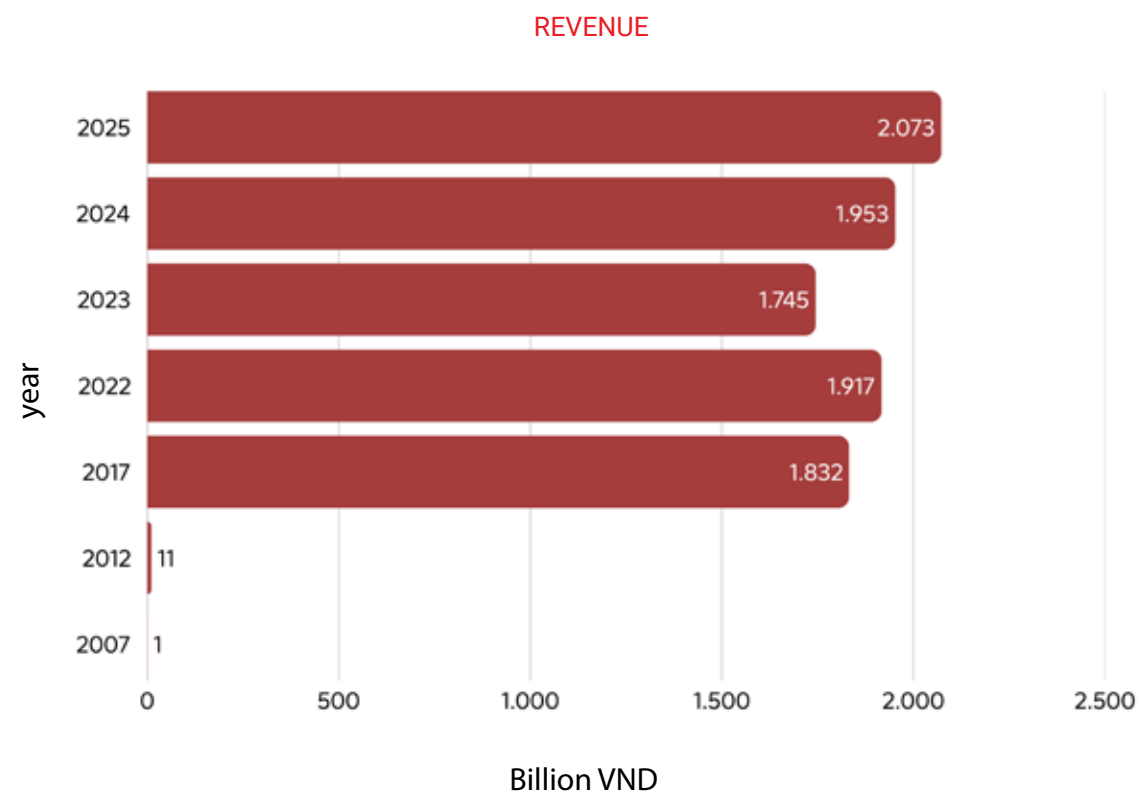

“ F.I.T Group places people at the center, thereby emphasizing 5 core values that serve as the foundation and guiding principles for every action and behavior across the entire Group, aiming for excellent results ”

I PHARMACEUTICAL – MEDICAL

With a vision to become one of the leading multi-industry corporations in Vietnam, F.I.T Group identifies Pharmaceuticals as a strategic sector playing a key role in its mission to improve quality of life.

Through a well-structured investment strategy, a modern manufacturing foundation, and a team of experienced professionals, F.I.T Group is gradually affirming its position in the pharmaceutical industry, contributing to the development of a sustainable healthcare system and improving community health.

Thanks to its outstanding contributions to the pharmaceutical industry, F.I.T Group's member companies have received numerous honors such as the Second-class Labor Medal, Certificate of Merit from the Minister of Public Security, and the "Vietnam Pharmaceutical Star" Award – 1st edition by the Ministry of Health.

Benovas Pharma, Benovas Oncology, Benovas Capsule, and Benovas Medical Devices are prominent members in the Pharmaceuticals – Medical sector in Vietnam, specializing in providing innovative, accessible, and high-quality healthcare products and services.

CUU LONG PHARMACEUTICAL JOINT STOCK COMPANY (DCL HOLDINGS)

Established in 1976, DCL Holdings has, over nearly half a century, become a reputable brand trusted by consumers, pharmacies, and major hospitals across Vietnam, as well as one of the most reliable partners globally.

With over 1,000 employees, DCL Holdings is actively engaged in three core areas: Pharmaceuticals – Empty Capsules – Medical Equipment.

For the OTC Channel:

DCL Holdings operates dozens of branches spanning from North to South Vietnam, with more than 10,000 wholesale and retail customers under its nationwide branch network. It is a key partner of major pharmacy chains such as Pharmacy, Long Chau, and Trung Son, ensuring wide distribution of its products across the Vietnamese market.

For the ETC Channel:

DCL Holdings directly participates in and wins tenders at nearly 1,000 hospitals, general clinics, and health centers nationwide.

For the Authorized Tendering Channel:

DCL Holdings signs contracts with major clients to authorize tender participation in centralized procurement packages, ensuring that DCL Holdings' products are supplied to most hospitals and health centers as per awarded tender quantities. In addition, DCL Holdings is developing strategic partnerships with over 10 of the largest pharmaceutical distribution companies to include its products in their networks, thereby expanding its reach to smaller retail customers.

For the Export Channel:

Currently, DCL Holdings has established a presence in Southeast Asian countries such as Myanmar, Cambodia, and Laos, and is expanding into African markets, while aiming to penetrate key markets in Europe and the United States.

BENOVAS CAPSULE ONE MEMBER LIMITED LIABILITY COMPANY (BENOVAS CAPSULE CO., LTD.)

Benovas Capsule Co., Ltd. own the manufacturing plant covers a total area of 16,132 m², with an initial investment of approximately 800 billion VND. It is equipped with 20 production lines utilizing advanced technology from Technophar (Canada) and has a maximum capacity of 12 billion capsules per year. The plant offers a wide range of empty capsule types and sizes, and meets FDA standards for hard gelatin capsule shells. These are key factors contributing to DCL's position as one of the most reputable and leading brands in the hard capsule sector in the Vietnamese market.

The factory produces a wide variety of capsule types and sizes to meet the demands of both the pharmaceutical and nutraceutical industries. With advanced formu-

lation techniques and a production process that complies with standards from the Vietnam Ministry of Health, DCL Holdings is currently a manufacturing and distribution partner to nearly 300 enterprises in the pharmaceutical and nutraceutical fields. The company's products also meet export standards for demanding markets.

Benovas Capsule is now recognized as one of the most trusted suppliers for major partners such as Stella, Domexco, and Bidiphar, and continues to supply a wide variety of capsule shells in different types and sizes to global clients.

I FMCG

With a vision for sustainable development and the ability to capture modern consumer trends—prioritizing "green" products and responsible consumption—F.I.T Group has proactively invested in and transitioned its production model toward eco-friendly, clean, and transparent operations.

F.I.T Group's products are consistently trusted and chosen by consumers for their safe, health-friendly ingredients and their contribution to promoting a healthy lifestyle within the community. Our environmentally friendly products deliver innovative experiences and exceptional effectiveness. Additionally, Vikoda, a subsidiary of F.I.T Group, provides 100% natural alkaline

mineral water rich in essential minerals. This product encourages a habit of proactive health care, thereby contributing to improving physical well-being and quality of life for consumers.

At F.I.T Group's manufacturing facilities, sustainability is ensured throughout the production process. The company employs modern waste treatment systems, with 100% of wastewater treated to standard before being discharged into the environment.

F.I.T Group's home care, personal care, and beverage products are widely distributed across Vietnam, present in retail stores,

supermarket chains, and even five-star resorts, meeting the increasingly diverse demands of the market.

Each year, the Group conducts assessments and calculations on the consumption of resources, energy, and emissions per production unit, in order to establish concrete roadmaps for achieving sustainable development goals in manufacturing.

List of Member Companies Operating in the FMCG Sector:

- ▶ Khanh Hoa Mineral Water Joint Stock Company
- ▶ Today Cosmetics Joint Stock Company
- ▶ FIT Cosmetics Joint Stock Company

“Danh Thanh - Vikoda and Today Cosmetics are among the leading members in the FMCG sector in Vietnam, specializing in the supply of natural and healthy wellness products, with a strong focus on sustainable development.”

KHANH HOA MINERAL WATER JOINT STOCK COMPANY

Khanh Hoa Mineral Water Joint Stock Company, a member of F.I.T Group Joint Stock Company, is a leading non-alcoholic beverage manufacturer specializing in products sourced from the Danh Thanh natural alkaline mineral water reserve. Established on January 19, 1990, the company has built a strong legacy in Vietnam's beverage industry. Its headquarters and production facilities are located in Cay Sung Hamlet, Dien Tan Commune, Dien Khanh District, Khanh Hoa Province, Vietnam.

With more than 35 years of establishment and growth, Khanh Hoa Mineral Water Joint Stock Company has remained dedicated to researching and developing health-oriented beverage products derived from the valuable Danh Thanh natural alkaline mineral water source.

The company has invested in advanced drilling technologies and modern production systems, enabling mineral water to be extracted from a depth of 220 meters and bottled directly at the source under stringent standards in accordance with Ministry of Health regulations. This process preserves the water's natural purity and authentic taste in every product delivered to consumers. Guided by a commitment to protecting the environment and honoring nature's values, the company actively prevents pollution, develops green protective zones around the water source, and promotes long-term sustainability.

THE ESSENCE OF Vikoda BRAND

ORIGINAL AS
THE GEM
IN STONE

Born from the Danh Thanh mineral source, every drop of water is a natural gem born from seasonal rains on the Truong Son mountain range, then honed through many layers of Danh Thanh mineral rock to carry only alkalinity, perfect pH 9.0, rare in nature and full of precious minerals from heaven and earth. Without trying to filter out what is inherent, nor need to change the already wonderful nature, Vikoda as well as yourself, an Original as the Gem in Stone.

PRODUCT INFORMATION

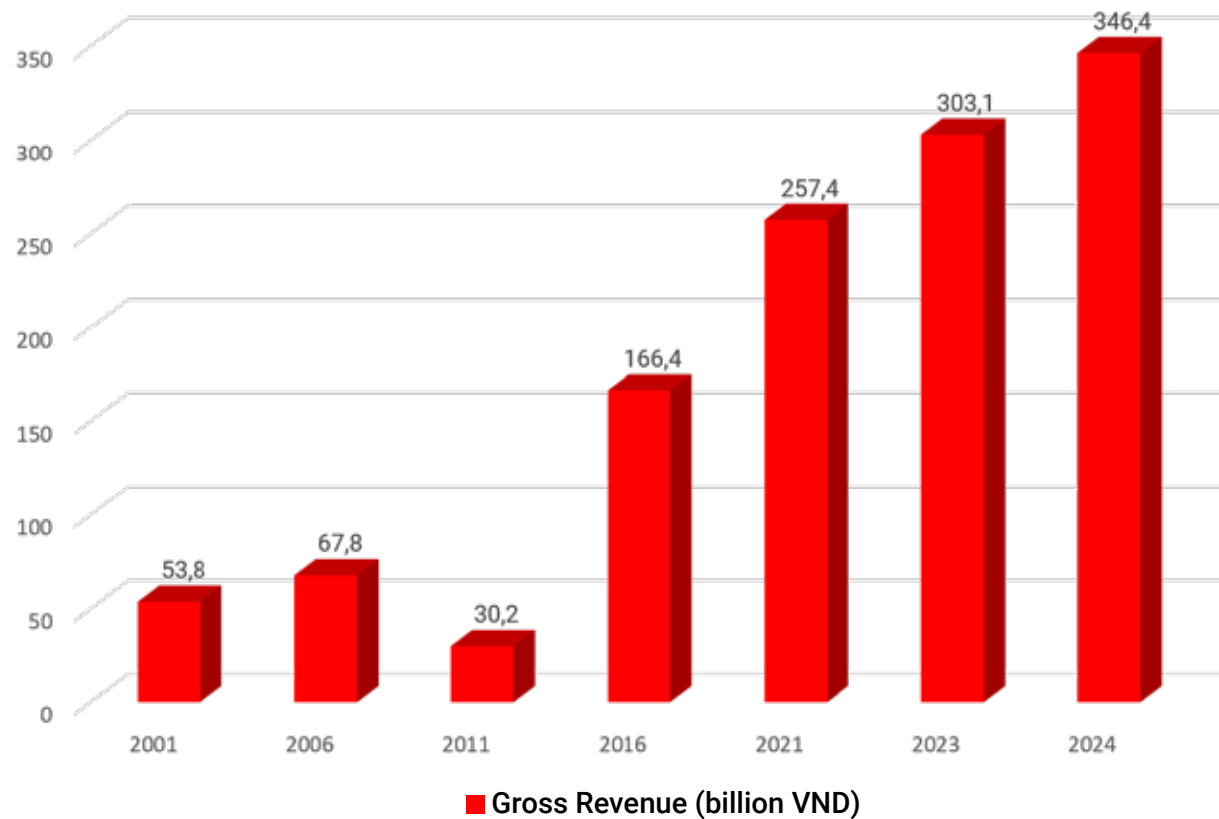

VIKODA NATURAL ALKALINE MINERAL WATER pH 9.0: FROM THE RARE DANH THANH ALKALINE MINERAL SOURCE, IS THE NOURISHING SOURCE OF LIFE FOR COMPLETE HEALTH, WITH 5 KEY FACTORS TO ASSERT ITS POSITION AS "GOOD WATER."

- **1. Clean mineral water form the source:** Vikoda is produced and bottled directly at the Danh Thanh natural alkaline mineral water source, ensuring cleanliness and authenticity.
- **2. Natural alkaline, pH 9.0**
 - Body Balance: With its naturally perfect alkalinity, it helps neutralize excess stomach acid, supporting those with gastric hypersecretion, gastric ulcers, acid reflux, and intestinal inflammation.
 - Acts as an antioxidant, normalizing the gut microbiota.
 - Improves bone density in postmenopausal women with osteoporosis.
 - Reduces blood viscosity, aids in cellular detoxification, enhances cell hydration, and relieves pressure on the cardiovascular system.
 - Improves sleep quality, aids in recovery after sleep as well as after intense physical exercise, and benefits skin health.
- **3. Retain all valuable trace mineral, with a total dissolved solids (TDS) content of 100-400 mg/L, which is beneficial for health:**
 - H₂SiO₃: Helps brighten and rejuvenate the skin and promotes flexible joints.
 - HCO₃⁻: Supports a healthy digestive system.
 - Na⁺: Balances electrolytes and prevents dehydration.
 - K⁺: Maintains proper nerve function and stabilizes blood pressure.
 - Ca²⁺: Strengthens bones and supports healthy muscles.
 - Mg²⁺: Reduces stress and improves sleep quality.
- **4. Antioxidant capability with a high oxidation-reduction potential**

ORP (Oxidation-Reduction Potential) = -100mV, helps neutralize free radicals, reduce oxidative stress in the body, support detoxification, slow down aging, and promote overall well-being.
- **5. Nutrient transport capability:** Vikoda's small water molecules easily penetrate cell membranes and body tissues, facilitating the transport of nutrients and the elimination of waste.

KHANH HOA MINERAL WATER JOINT STOCK COMPANY

REVENUE GROWTH RATE

ON-SITE PRODUCTION PROCESS

- Step 1 Extraction**
 Mineral water is extracted from a 220-meter-deep borehole. It is transported directly from the source to the production plant through a fully sealed stainless steel pipeline, preserving the original and pure essence of natural mineral water.
- Step 2 Treatment**
 The natural mineral water is processed according to QCVN 6-1:2000/BYT and Codex 108 standards, using physical treatment methods such as odor removal – filtration – UV sterilization – cooling and chilling.
- Step 3 Bottling**
 Treated mineral water that meets quality standards is sent to the bottling area.
- Step 4 Labeling & Packaging**
 Bottles are labeled and boxed, creating refined products that represent our respect for the natural gifts delivered to consumers.

PRODUCT STRUCTURE

PRODUCTION CAPACITY

Starting with just 30 employees, operating in a modest 500m² facility with manual extraction and transportation processes, the company initially served the local market with an annual output of no more than 300,000 liters.

After 34 years of development, the company has made significant investments to establish 06 modern product lines on a 5ha premises. These lines, sourced from countries such as Germany, Italy, Taiwan, and China, boast a capacity of 400m³ per day and are advancing towards 500m³ per day.

I REAL ESTATE

Targeting the mid- to high-end segment, the Group views real estate not merely as a line of business but as a mission to create lasting value for society and the community. Guided by the philosophy of prioritizing quality over speed or scale, each project is implemented with rigor and professionalism. On this journey, F.I.T Land Investment Joint Stock Company, established on July 11, 2016, has been actively contributing to the Group's overall development.

With a team of highly experienced experts, the company provides a wide range of real estate services, including: Real estate and land use rights trading; real estate consulting, brokerage, and auction services; other related real estate activities. Each project is not only an investment but also a commitment to quality and sustainable value.

I AGRICULTURE

Committed to sustainable agricultural development and prioritizing consumer health and safety, F.I.T Group has developed clean raw material zones, invested in modern equipment, and maintained meticulous control over every stage of the process—from product formulation and seed sourcing to harvesting, processing supervision, and product packaging and design—to ensure maximum safety for end users.

Thanks to a strategic, long-term investment vision, the Group's agricultural products are now present in all provinces across Vietnam and exported to demanding markets such as Europe, the United States, Japan, and South Korea, among others.

F.I.T Group's goal is to continuously improve quality and diversify its product offerings to meet the increasingly high demands of consumers.

WEST FOOD PROCESSING EXPORTS JOINT STOCK COMPANY

Established in 1992, Westfood is a prominent member of the TSC Group in the agriculture and food processing sector. The company specializes in producing frozen (IQF) products, canned products, and other agricultural goods made from mango, pineapple, papaya, dragon fruit, and lotus seeds. These are processed using advanced technology and highly automated production lines to ensure freshness and nutritional value.

To date, Westfood products have been exported and well-received in many countries and regions including the United States, France, Japan, Australia, Canada, the Netherlands, Ireland, and South Korea. Westfood primarily serves large corporations and industrial food processors.

Located in the heart of the Mekong Delta—the most fertile region in Vietnam—Westfood operates two major factories in the area.

Westfood Can Tho Factory

Located in Cai Son – Hang Bang Industrial Park, Ninh Kieu District, Can Tho City, the factory spans over 30,000 m² and is equipped with highly automated production lines and advanced technology. Key specifications:

- 3 IQF machines with a total capacity of 2.2 tons/hour (investment period: 2008–2015). Modern frequency IQF system with a capacity of 2 tons/hour.
- 4 can cutting lines, with a total output of approximately 600 containers/year
- Plastic cup production line with a capacity of 5,500 cups/hour

Westfood Hau Giang Factory

The Westfood Hau Giang Factory covers an area of approximately 7 hectares with a total investment of over 666 billion VND. The factory has a daily processing capacity of 120 tons of finished products and is scheduled to begin operations in Q2/2025. As one of the largest agricultural processing plants in Southern Vietnam, the factory will produce a wide range of new, high-quality products in addition to Westfood's current product lines. With an annual capacity of 30,000 tons, the facility serves as a strategic foundation to position Westfood among the Top 5 leading fruit and vegetable exporters in Vietnam.

SUSTAINABLE DEVELOPMENT

Sustainable vision	72
Social responsibility	74
Sustainable human resource development	82
Environmental protection	84

I SUSTAINABLE VISION

F.I.T Group is committed to sustainable development by maintaining a balanced alignment between the interests of the business, society, employees, shareholders, partners, and the environment. The Group continuously strives to create enduring value for the community and contribute to the nation's broader development goals. Guided by a sustainability-driven vision, F.I.T Group seeks to harmonize economic growth with environmental responsibility, building a strong foundation for long-term and sustainable prosperity.

FOR THE ENVIRONMENT

F.I.T Group identifies environmental protection as a key element in its long-term development strategy. The Group proactively invests in environmentally friendly production technologies, reduces emissions, increases the use of recycled materials, and optimizes the efficiency of natural resource exploitation and utilization. Beyond its production activities, F.I.T Group also implements various community-oriented initiatives such as tree planting, water resource protection, and raising social awareness of ecosystem conservation.

With this sustainable development orientation, the Group aims to harmonize economic growth with environmental responsibility, laying the groundwork for a long-term and sustainable future.

FOR SOCIETY

As a conglomerate operating in pharmaceuticals, fast-moving consumer goods, food, agriculture, and real estate, F.I.T Group is oriented toward delivering high-quality products and services to best meet the needs and interests of Vietnamese consumers.

In parallel with its business operations, the Group places strong emphasis on fulfilling its corporate social responsibility (CSR), aiming to improve the quality of life for the community. The enterprise actively invests in healthcare programs, promotes green consumption, and implements projects that support sustainable development, particularly in areas affected by natural disasters or facing socio-economic challenges, thereby contributing to the spread of humanistic values across society.

FOR PARTNERS & SHAREHOLDERS

F.I.T Group is committed to delivering optimal benefits and long-term value to its shareholders and partners. The Group ensures transparency in management and financial reporting, guarantees information disclosure in compliance with legal regulations and in the best interests of shareholders, and maintains stable growth in its business operations.

F.I.T Group builds its partnerships on the principles of respect, fairness, and mutual development. The Group continuously expands its collaboration network, working alongside strategic partners to create shared value, while adhering to standards of business ethics and sustainable development.

FOR EMPLOYEES

At F.I.T Group, people are the foundation of success. The Group fosters a professional and safe working environment, invests in modern facilities, and provides well-equipped living spaces to enhance both work efficiency and the well-being of employees. The Company implements competitive welfare policies, including supplementary health insurance, 24/7 accident insurance, recognition and appreciation programs, and internal engagement activities.

At the same time, employees are regularly provided with professional training to develop their capabilities and long-term career paths. With a spirit of integrity, compliance, and a strong aspiration to achieve goals, each individual contributes to collective strength, driving the Group's sustainable development and making positive contributions to society.

I SOCIAL RESPONSIBILITY

CUU LONG PHARMACEUTICAL ORGANIZES PERIODIC HEALTH CHECK-UPS, PROACTIVELY SAFEGUARDING EMPLOYEE HEALTH

From November 25 to November 27, 2025, Cuu Long Pharmaceutical Joint Stock Company successfully organized its annual periodic health check-up program for more than 800 employees. This initiative aims to safeguard employee health, enabling early detection of occupational diseases and facilitating timely intervention measures. The health check-up program was conducted in full compliance with legal regulations on occupational safety and hygiene, as well as employee healthcare. It included general health examinations, biochemical tests, complete blood counts, ultrasound, X-ray imaging, and specialized medical assessments to provide a comprehensive evaluation of individual health conditions. This program helps identify early signs of potential health issues, enabling employees to proactively monitor their health and adjust their lifestyles to ensure long-term well-being. Through this initiative, Cuu Long Pharmaceutical Joint Stock Company aims to provide each employee with the opportunity to better track their health, adopt healthier habits, engage in regular physical activities, and maintain a positive mindset at work.

CUU LONG PHARMACEUTICAL ORGANIZES PERIODIC HEALTH CHECK-UPS, PROACTIVELY SAFEGUARDING EMPLOYEE HEALTH

After more than one year as a strategic partner of the Vietnam Nutrition Association, Khanh Hoa Mineral Water Joint Stock Company – Vikoda brand has established a strong presence within the scientific community and among professionals, contributing to raising awareness of health care among Vietnamese people. Vikoda has been honored to serve as Diamond Sponsor and Strategic Partner at the National Nutrition Science Conference, while also accompanying 15 nutrition-related conferences and scientific seminars nationwide during the 2024–2025 period. Through these activities, the brand has contributed to disseminating scientific knowledge on healthy lifestyles and the important role of drinking water in human health.

SPREADING LOVE JOURNEY “WARM SPRING – REUNION TET” WITH FIT FUND

In December 2025, amid the vibrant atmosphere of preparing for the Lunar New Year, FIT FUND – the charitable fund of F.I.T Group – launched the “Warm Spring – Reunion Tet” initiative, delivering gifts to employees facing particularly difficult circumstances across its member companies. The program embodies strong humanistic values, reflecting F.I.T Group’s deep care for both the material and spiritual well-being of its employees. According to the organizing committee, the 2025 “Warm Spring – Reunion Tet” charity journey provided support to 25 employees in especially challenging situations across member companies. In addition to financial assistance, FIT FUND continues its long-term support through initiatives such as job assistance and educational opportunities for employees’ children, thereby helping employees stabilize their lives and remain committed to the Group.

TAKING ON CHALLENGES, ACHIEVING GREAT SUCCESS TEAMBUILDING TO STRENGTHEN DCL EMPLOYEE ENGAGEMENT

At the end of September 2025, Bai Sau Beach – Vung Tau was filled with vibrant energy with the participation of nearly 470 employees of DCL and its member companies. Under the bright sunshine, on the soft white sand and in the fresh sea breeze, a series of highly challenging team-building games took place, requiring skillful coordination, strong endurance, and close collaboration among team members. After a day full of excitement and competitive spirit, the Gala Dinner brought a warm and reflective atmosphere. Under sparkling lights and lively music, all DCL employees came together to look back on their journey – a path marked by effort, transformation, and steady progress forward. More than just a leisure trip, the 2025 teambuilding program became a meaningful journey of connection, spreading team spirit across DCL. It provided an opportunity for each member to listen, share, and collaborate more effectively, all moving toward common goals. What remains after the trip is not only cherished memories, but also strengthened unity, pride, and renewed energy to continue achieving the OGSM 2025 objectives.

FIRE PREVENTION AND FIREFIGHTING TRAINING AT CUU LONG PHARMACEUTICAL

At the end of August 2025, Cuu Long Pharmaceutical Joint Stock Company, in coordination with the Fire Prevention, Firefighting and Rescue Police Department, organized a fire safety drill at its headquarters and Capsule manufacturing plant. The program aimed to enhance awareness and emergency response capabilities among all employees, while strengthening occupational safety practices within the enterprise. According to the assessment by representatives of the Fire Prevention and Firefighting Police, the drill was well-organized, practical, and closely aligned with real-life scenarios, demonstrating Cuu Long Pharmaceutical's thorough preparation and strong commitment. Participants followed proper procedures and demonstrated proactiveness and composure in handling simulated emergency situations—key factors in real fire incidents. Through this exercise, Cuu Long Pharmaceutical not only reaffirmed its commitment to maintaining a safe working environment but also demonstrated a long-term vision in risk management. Strict compliance with fire prevention, firefighting, and rescue regulations is not only a legal obligation but also a core value embedded in the Company's corporate culture. Moreover, close coordination with relevant authorities reflects a proactive approach and readiness to respond to all situations, contributing to the protection of people and assets, and ensuring the sustainable stability of production and business operations. Maintaining regular drills, communication, and internal training will continue to be a long-term orientation of Cuu Long Pharmaceutical, reflecting the Company's responsibility in the context of integration and sustainable development.

VIKODA ACCOMPANIES THE 2025 CHILDREN'S BOOK STORYTELLING CONTEST

By accompanying the 2025 Children's Book Storytelling Contest under the theme "Pride of the Great Spring Victory," Khanh Hoa Mineral Water Joint Stock Company (Vikoda) aims to encourage reading habits, enhance knowledge, and promote a healthy lifestyle among children. With the mission of inspiring people to enjoy life through superior health care products and services, Vikoda consistently focuses on delivering high-quality natural alkaline mineral water products that support proactive and sustainable health care. Its participation in programs for children forms part of the Company's corporate social responsibility strategy, which emphasizes health education and the development of healthy living habits for the younger generation. Through sponsorship and presence at community events such as the storytelling contest, Vikoda seeks to collaborate with organizers in building a comprehensive development environment for children—where they are not only educated and equipped with essential skills, but also cared for in both physical and mental well-being.

DCL ACCOMPANIES THE 2025 SCIENTIFIC AND TECHNICAL CONFERENCE

On November 29, 2025, Cuu Long Pharmaceutical Joint Stock Company participated as a sponsor and exhibited its products at the 2025 Scientific and Technical Conference. The conference, organized by An Giang General Hospital, was attended by more than 500 delegates, including healthcare leaders, doctors, experts, and representatives from various medical institutions both within and outside the province. This is an important annual scientific event aimed at updating and sharing medical advancements, while promoting research activities and the application of new techniques in medical examination and treatment at the local level. DCL's participation clearly demonstrates the Company's commitment to supporting professional activities and contributing to the enhancement of healthcare quality in the community.

SALES KICK-OFF 2026 – DCL: READY TO BREAK THROUGH, UNITED IN ACHIEVING NEW GOALS

From December 18 to December 20, 2025, in Phan Thiet, DCL successfully organized the Sales Kick-off 2026 program with the participation of approximately 80 delegates, including the Management Team, nationwide sales force, and representatives from various sales channels. The event marked an important milestone, signaling a strong start to the 2026 business year, while reaffirming the determination for innovation, unity, and breakthrough across the entire DCL system. Sales Kick-off 2026 was held in the context of a year 2025 marked by numerous market fluctuations and challenges. During the program, DCL's leadership presented the 2025 business performance review, providing a comprehensive evaluation of achieved results, while candidly acknowledging existing limitations and lessons learned. More than just concluding with figures, plans, and specific targets, Sales Kick-off 2026 opened a new journey driven by confidence, determination, and a strong readiness to break through across the entire DCL team. With strategies clearly defined, goals aligned, and people united in vision, DCL enters 2026 with a proactive, resilient, and ambitious mindset. With strong alignment from leadership to the nationwide sales team, DCL is confident in achieving breakthrough progress, contributing to the sustainable development of F.I.T Group and reinforcing its solid position in both domestic and international markets.

DCL INAUGURATES VINH LONG HEAD OFFICE, MARKING A NEW MILESTONE IN ITS SUSTAINABLE DEVELOPMENT JOURNEY

On December 29, 2025, Cuu Long Pharmaceutical Joint Stock Company officially held the inauguration ceremony of its Vinh Long Head Office, marking the commencement of operations of its new executive building. The event represents not only an important infrastructure milestone but also reflects the Company's strategic vision in investing in people and a modern working environment. Speaking at the ceremony, Ms. Nguyen Thi Thu Huong emphasized that the inauguration of the new head office is not merely a change in workspace, but a significant step forward in DCL's long-term development strategy. According to her, the new executive building is expected to serve as a hub that connects people, fosters collaboration and innovation, and enhances operational efficiency as the Company continues to expand its scale and strengthen its competitive capabilities. The DCL head office building in Vinh Long is designed with a modern orientation, comprising three floors with a total floor area of over 1,200 m². Specifically, the ground floor covers 429 m², while the first and second floors each have an area of 402 m². The design emphasizes an open and airy workspace, maximizing natural light, and integrating various supporting facilities such as multifunctional meeting rooms, reception areas, and collaborative workspaces. The new working environment is aimed at enhancing comfort, inspiring creativity, and improving the overall employee experience.

INAUGURATION OF WESTFOOD HAU GIANG FACTORY – CELEBRATING THE CAN THO PARTY CONGRESS

On September 26, at Song Hau Industrial Park, Can Tho City, West Food Processing Exports Joint Stock Company (WestFood) inaugurated the WestFood HAU GIANG agricultural and food processing factory. The commissioning of the factory contributes to enhancing the value and strengthening the brand of Vietnamese agricultural products in international markets. Recognized as one of the largest agricultural and food processing facilities in the Mekong Delta, the WestFood HAU GIANG factory is built on an area of 7 hectares, with a total investment of more than VND 666 billion and a designed capacity of 30,000 tons of finished products per year. The factory is equipped with state-of-the-art production lines meeting European standards, including IQF rapid freezing

systems, automated three-tier conveyor systems, and automatic fruit peeling and cutting machines. It also features automated canned and cup-pack fruit production lines, as well as cold storage and cool storage facilities with a capacity of up to 3,000 MT (equivalent to 3,000 tons). Currently, WestFood provides employment for more than 700 employees, contributing to the socio-economic development of the local area. The inauguration of the WestFood HAU GIANG factory marks a significant milestone, affirming the Company's efforts to enhance the value of Vietnamese agricultural products, while demonstrating its ongoing commitment to delivering effective solutions and providing consumers with the freshest and highest-quality fruit and vegetable products.

VIKODA & DANH THANH PROUDLY ACCOMPANY THE 1ST KHANH HOA PROVINCIAL PARTY CONGRESS, TERM 2025-2030

From September 21 to September 23, 2025, the 1st Congress of Delegates of the Khanh Hoa Provincial Party Committee for the 2025-2030 term was held and concluded at the Khanh Hoa Provincial Children's Cultural Center in a solemn and formal atmosphere. In alignment with the spirit of this important political event, Khanh Hoa Mineral Water Joint Stock Company (Vikoda) was honored to participate in the "Khanh Hoa OCOP Product Exhibition Space," introducing high-quality products serving community health to delegates and visitors. Vikoda's presence at the Congress not only reflects the pride of a company closely connected to the local community, but also reaffirms its responsibility and commitment to accompanying the sustainable development of Khanh Hoa Province. With more than 35 years of establishment and development, Vikoda has remained steadfast in its mission of promoting community health through products sourced from valuable natural mineral resources. The philosophy "Flavor from the essence within stone" represents the guiding spirit throughout Vikoda's journey, honoring the purity and intrinsic value of Vietnam's mineral resources, while delivering high-quality, safe, and health-beneficial products to consumers.

I SUSTAINABLE HUMAN RESOURCE DEVELOPMENT

ENSURING EMPLOYEE RIGHTS AND BENEFITS

Transparent Labor Regulations

F.I.T Group is committed to developing its internal labor regulations in full compliance with legal requirements.

In terms of salary, insurance, and benefits, F.I.T Group maintains a competitive compensation level for its employees compared to the general market in the same industry in Vietnam. Additionally, the Group offers highly competitive salary, bonus, and incentive policies for skilled and experienced professionals in relevant fields—not only to retain current employees but also to attract talent from diverse sources to contribute to and grow with the Group.

Regarding contributions to Social Insurance, Health Insurance, and Unemployment Insurance, the Group strictly adheres to all legal regulations. Furthermore, in collaboration with Bao Viet Insurance Corporation, F.I.T Group has developed and implemented premium health insurance programs exclusively for its employees.

The Group regularly reviews and adjusts its benefits policies to provide more practical and meaningful incentives for all staff members.

Comprehensive Working Conditions

F.I.T Group operates on a schedule of 8 hours per day, 5 days per week. Employees are entitled to public holidays, annual leave, and personal leave with full pay in accordance with the provisions of the Labor Law.

Ideal Working Environment

Committed to building a professional workplace, F.I.T Group provides employees with spacious, well-equipped offices. Staff are supplied with modern work equipment and receive regular health check-ups. The company also supports employees with mobile phone allowances and provides lunch at the company cafeteria.

KEY WELFARE POLICIES OF THE GROUP

Employee health is one of the top priorities of the Group's leadership. In addition to standard health insurance, F.I.T Group provides employees with an extra health insurance package from Bao Viet Insurance, offering extensive benefits and accepted at a wide range of medical facilities and major hospitals.

Annual health check-ups are organized for all employees at reputable hospitals known for high-quality services, such as Thu Cuc Hospital, Hong Ngoc Hospital, and others.

Employees receive thoughtful gifts for important personal milestones such as birthdays, weddings, childbirth, illness, and on festive occasions.

The Group also organizes festivals, team-building activities, and trips for employees and their families, as well as rewards for employees' children who achieve outstanding results in academics, sports, or the arts.

Modern, fully equipped gym and 3D golf rooms are available for employees to promote a healthy lifestyle.

BUILDING CORPORATE CULTURE

Corporate Cultural Activities

F.I.T Group places special emphasis on employee engagement activities, ensuring both the rights and emotional well-being of all staff members. The Trade Union's initiatives are actively maintained to foster a connected environment, encouraging employees to maximize their potential, strengthen team unity, and build a vibrant corporate culture through:

- F.I.T Club, which hosts a wide range of activities such as book sharing, knowledge-sharing sessions, and soft skills training workshops.
- Sports and wellness activities including gym, yoga, golf, and football clubs to promote physical health.
- Annual team-building events, designed to be both intellectually stimulating and team-oriented.
- Annual Gala Dinner, held at both the company and Group levels, celebrating milestones and achievements.
- 2–3 bonding trips each year during events like spring excursions, summer holidays, and company anniversaries.
- Quarterly birthday celebrations for employees.
- A library corner stocked with a variety of books to support employees' reading and learning interests.
- Diverse cultural activities organized throughout the year.

Employee Training Activities

To ensure sustainable organizational growth, every individual at F.I.T Group is encouraged to engage in continuous learning. A professionally designed E-Learning system has been thoughtfully developed to support employees in enhancing both their professional expertise and soft skills. In addition, regular offline training programs are also organized to further support employee development.

Honoring Success

F.I.T Group always respects and values human potential, especially individuals who are a strong cultural fit and make outstanding contributions. Honoring achievements is not only a principle but also a guiding compass in the Group's corporate culture.

Respecting people, recognizing the right individuals, and celebrating success are core values that F.I.T Group consistently upholds. Titles such as Employee of the Month/Quarter, Employee of the Year, and Top Sales Performer are prestigious honors that every staff member strives to earn. Alongside these recognitions, well-deserved rewards worth thousands of USD are presented to acknowledge and encourage excellence.

I ENVIRONMENTAL PROTECTION

ENVIRONMENTAL IMPACT

During its operation, F.I.T Group has always placed a high priority on raising awareness among employees about the importance of environmental protection and climate change response. Internal training programs and communication campaigns have been implemented to help staff better understand both individual and organizational responsibilities in minimizing negative environmental impacts.

At the same time, the Group has developed and implemented strict procedures to control the waste treatment systems at its factories and production

facilities, contributing positively to the society's overall effort to protect the environment.

In the past year, the Group did not record any cases of administrative fines from state management agencies related to violations of environmental protection regulations.

This not only reflects strict compliance with legal regulations but also affirms the Group's strong commitment to sustainable and environmentally friendly development.

RAW MATERIAL MANAGEMENT

Over the years, F.I.T Group has continuously invested in upgrading and constructing new production facilities, applying the most advanced and modern technologies. Optimizing the production line is always a top priority to conserve resources, reduce energy consumption, and minimize environmental impact. In parallel, continuous improvements in the production process are carried out to enhance efficiency, improve product quality, and reduce raw material waste, promoting sustainable production.

To improve the efficiency of raw material usage, the Group prioritizes the installation of highly automated lines, optimizing the production process to minimize waste and unnecessary intermediate stages that may generate waste.

Recycling solutions for materials are thoroughly applied, along with limiting the use of disposable packaging at factories, contributing to reducing plastic waste and protecting the environment.

In addition, the Group always focuses on training and raising awareness among employees about the importance of managing and efficiently using raw materials.

Through training programs, F.I.T has built a positive corporate culture where every employee is conscious of and committed to actions that help preserve natural resources.

DCL HOLDINGS JOINS HANDS TO PROTECT THE ENVIRONMENT

On the afternoon of September 21, 2024, the Youth Union of Cuu Long Pharmaceutical collaborated with the police force and the People's Committee of Ward 5, Vinh Long City to organize the annual event "Green Sunday 2024" in response to the environmental protection movement and urban landscape preservation campaign.

This meaningful activity, initiated by the local authorities, contributes to raising individual awareness and responsibility in maintaining a green, clean, and beautiful living environment.

As part of the program, the Youth Union of Cuu Long Pharmaceutical, along with other departments and

mass organizations, carried out the removal of illegal advertising boards and cleaned up improperly placed garbage collection points that affected urban aesthetics. These actions not only helped restore tidiness and cleanliness in public areas but also contributed to communication efforts to raise community awareness of the importance of complying with environmental protection regulations.

The program concluded successfully with enthusiastic participation from youth union members and local authorities, showcasing the power of unity and collective effort toward common goals, making practical contributions to the sustainable and prosperous development of Vinh Long province.

VIKODA LAUNCHES TREE PLANTING CAMPAIGN TO PROTECT PRECIOUS WATER SOURCES

The campaign "VIKODA 35 YEARS – GREEN LAND, CLEAN WATER, SUSTAINABLE FUTURE" has sparked a spirit of love for nature and spread the message of environmental protection to all employees, partners, and the community. Activities such as

tree planting ceremonies, educational programs on water source conservation, and tree planting at the Dinh Thanh water extraction site have been systematically implemented.

As a result, hundreds of trees have been planted by the Vikoda team, creating a diverse green coverage that not only helps preserve the environment but also beautifies the landscape. Vikoda hopes this movement will ignite a strong wave of action—not only within the company but also throughout the broader community—contributing to the construction of a sustainable future for generations to come.

Through this effort, the Vikoda mineral water brand continues to affirm its leading position, aligned with the mission of safeguarding consumers' health and promoting sustainable environmental development.
